

# PROMOTING SUPER WOMEN IN SCIENCE

## WHEN?

Saturday, November, 18th 2017

KAUST University Library Building located on the University spine.  
The event begins at 10am and ends at 4:00 pm.

## WHAT'S HAPPENING?

Promoting **Super-Women-in-Science**, is a FREE one-day science extravaganza unlike any other science show that provides hands-on, minds-on interactive activities to promote girls in **8th – 11th grades** into careers in science, technology, engineering, and math; to encourage and excite them to pursue education in those areas; and to facilitate relationships with professional women at KAUST in some of these scientific disciplines.

During this event, Professors **Charlotte Hauser, Ikram Blilou, Ying Wu** and **Jasmeen Merzaban** from KAUST will share stories describing their career paths and their passion for science, technology, engineering and/or math.

Lunch will be provided!

## WHERE?

The KAUST University Library.

## HOW TO REGISTER

This event is a first come first served registration basis. A link will be e-mailed to all students/parents in the coming weeks.

Event Organizers: Ms. Deanna Mydland & Dr. Jasmeen Merzaban

**Contact us:** [Deanna.Mydland@kaust.edu.sa](mailto:Deanna.Mydland@kaust.edu.sa) and  
[Jasmeen.Merzaban@kaust.edu.sa](mailto:Jasmeen.Merzaban@kaust.edu.sa)

Generously supported by the KAUST Biological and  
Environmental Sciences and Engineering Division
